

# Conduct Analysis on FEVS Data for Bureau of Indian Affairs

Project Title	Conduct Analysis on FEVS Data for Bureau of Indian Affairs
Project Summary	Conduct data analysis on 2017 Federal Employment Viewpoint Survey (FEVS) responses in order to evaluate the BIA's current work environment, and identify potential areas of improvement in job satisfaction.
Country	United States
Agency	Bureau of Indian Affairs
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	1

## Project Description

The Bureau of Indian Affairs (BIA) seeks to improve the quality of life of Native American citizens by providing services to the 567 federally recognized tribes within the U.S. The BIA's Office of the Director looks to further the BIA's mission by analyzing data from the 2017 Federal Employment Viewpoint Survey (FEVS) in an effort to increase job satisfaction within the organization. The intern will have the opportunity to work extensively with Excel while providing descriptive statistics, and conducting a full analysis of the BIA's current work environment. The goal of this project is to gain an understanding into which factors are related to an individual's job satisfaction within the BIA, and to identify ways to improve upon low performing areas. This analysis may require a comparison of survey responses across different regional BIA offices. The intern will receive opportunities to increase data analysis, coding, and research skills while providing a service for BIA employees.
